

Amendments to the Abstract

Please amend the abstract as follows:

--Front wheel support for a wheel chair, said front wheel support comprising a curved tube for being attached to a frame member of the wheel chair and a curved part. The curved part has a first portion with a curvature being identical to the curvature of the curved tube, and a cross section allowing the first portion of the curved part to fit inside the curved tube. The curved part further comprises a second portion with a wheel fork seat for mounting a front wheel fork of said wheel chair.
